SUMMARY

I'm a passionate **MERN Stack Developer** with hands-on experience in building scalable web applications using **MongoDB**, **Express.js**, **React & Next js** and **Node.js**. Skilled in real-time communication with **Socket.IO**, secure authentication with **JWT**, and state management with **Redux Toolkit**. Experience in developing responsive **UIs** and deploying applications to **cloud platform**

EXPERIENCE

Junior Mern Stack - GenITeam :   October 2024 – December 2024, Lahore, Punjab
- Developed and deployed **scalable web applications** using **MongoDB**, **Express.js**, **React.js**, **Node.js** (MERN Stack)
- Implemented **secure authentication with JWT** and Integrated **real-time communication using Socket.IO**
- Built **responsive UI components in React.js** and manage global state efficently with **Redux Toolkit,** improving app performance and user experience
- Automated deployments through CI/CD pipelines and deployed applications on Vercel

Frontend Developer -Connect Solutions: Feb 2025 – July 2025, Lahore, Punjab
- Developed **dynamic and responsive React.js & Next.js** applications with modern front-end technologies
- **Leveraged React Hooks**, **Context Api** and **Redux Toolkit** for efficient state management and maintainable architecture
- Designed and implemented **reusable UI components** using **Tailwind CSS** and **Material UI**
- Collaborated in an **Agile Environment**, participating in code reviews, sprint planning and cross-functional teamwork

PROJECTS

Ecommerce-Store:

- Developed a **full-stack MERN-based e-commerce** platform for organic spices and herbs with secure authentication, product filtering and cart management.
- Built **RESTful APIs** with **Node.js** and **Express.js**, integrated **MongoDB** for efficient data storage and implemented **JWT authentication** for security.
- Created a **responsive front-end** with **React.js** and **Tailwind CSS**, ensuring a smooth shopping experience across devices.
- Added a **custom admin dashboard** for product / order management and integrated a **payment gateway** for secure transactions.
- Deployed on Vercel, optimizing performances, scalablity and CI/CD workflows.

Chat-App:

- Built a **real-time chat application** using the **Mern Stack** with **Socket.IO** for instant messaging.
- Implementing **JWT** authentication and **Redux Toolkit** for secure, scalable and efficient state management.
- Designed **MongoDB** schemas and built a responsive **React front-end** for seamless user experience.

https://github.com/AbuzarAli1122/Chat_App

Apple-Store:
- Developed a **modern iPhone store** clone using React.js, featuring a sleek, responsive design.
- Implemented **GSAP animations** to enhance UI interactions and deliver smooth page transitions.

SKILLS

Frontend: React.js, Redux Toolkit, Context API, React Hooks, Next.js ,
Tailwind CSS, Material UI, Styled-components**.**

Backend: Node.js, Express.js, Restful APIS, Authentication JWT, Socket.IO.

Database: MongoDB, Mongoose
Version Control & Deployment: Git, Github, Vercel
Other Tools & Concepts: Agile Methodologies, API Integration, Responsive Design
Languages: JavaScript, SQL, C++

EDUCATION

Bachelor's in Computer Science
Superior University • Lahore, Punjab • 2024.
Intermediate in Computer Science
Superior Group of Colleges • Lahore, Punjab • 2020.

Matriculation - Computer Science
Unique School System • Lahore, Punjab • 2018.

Certifications
- **MERN Stack Certification**-GenIteam
- **Node.js & Backend API Development**- Udemy
- **React.js & Frontend Development**- Udemy
